Landscape elements define space, screen undesirable views and gradually reveal desirable views. Defining Space. Anyone who has ever been in a building knows that there are rooms within that structure. These rooms, which are defined by walls, ceilings, floors, closed and open doorways, will have a different feeling based on the scale of these architectural elements. For example, when you sit in ...

[Basic Elements of Landscape Architectural Design Online ...](#)

The idea is that an element of architecture (for example, a doorway, or a building edge, even a window mullion) or a distinctive landscape feature (prominent tree, existing pool, property boundary) can "generate" an imaginary line that helps connect and organize the design. For example, in laying out one backyard, I projected the lines of its building addition into the garden space and ...

[Basic Elements of Landscape Architectural Design \(English ...](#)

These basic principles work together, providing the tools and means through which to create the solution. No one principle may be solely responsible for the success or failure of a particular project as they all work in concert. Figure 2: Cenotaph Design (Eduard Boullée) Architectural design principles are not neatly identifiable as "fixed parameters". The reality is, they are flexible. It ...
